Group Business Activities

ASL Marine Holdings Ltd. ("ASL Marine" or the "Group") is a fast-growing and dynamic offshore and marine company. ASL Marine is principally engaged in shipbuilding, shiprepair, shipchartering and other marine related services, catering to customers from Asia Pacific, South Asia, the Middle East and Europe.

ASL Marine owns three shipyards in Singapore, Indonesia and China providing a comprehensive range of marine engineering services spanning myriad sectors/ industries. It has a young fleet of more than 150 vessels comprising mainly tugs and barges for its shipchartering operation.

Shipbuilding

ASL Marine specialises in building offshore support vessels, work vessels and tankers. ASL Marine currently operates shipyards in Singapore, Batam, Indonesia and Guangdong, China.

Shiprepair and other marine related services

The Group currently operates a 150,000 dwt graving dry dock and a 20,000 dwt floating dock in the Batam shipyard which is one of the few shipyards in the region capable of repairing Capesize vessels.

Shipchartering

ASL Marine's diversified fleet of more than 150 tugs and barges allows the Group to serve customers from many industries, including offshore oil & gas, marine infrastructure, dredging, land reclamation & marine construction and cargoes transportation. This diversified strategy will cushion the Group against any downturn in a particular sector, as ASL Marine has the flexibility and versatility to re-deploy its vessels.

Competitive Strengths

Synergies from vertically integrated operations

- ASL Marine builds, repairs and maintains its own vessels where synergies can be derived from its shipyard and shipchartering operations.

Enhanced docking capacity

- The 150,000 dwt graving dry dock in Batam, measuring 260M x 60M x 11M in size, is currently one of the largest in Indonesia capable of accommodating larger vessels up to Capesize and Aframax. ASL Marine has since undertaken the repair of Jack-up oil rig, FSO, Tanker and other offshore support vessels.

Strategic location

- ASL Marine's shipyard in Batam is strategically located along major shipping routes.

Experienced Management Team

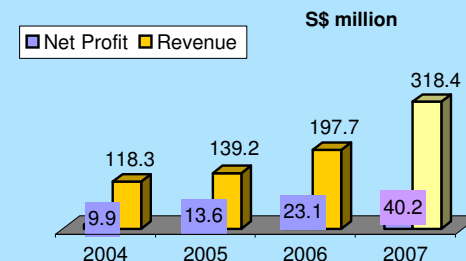

- An experienced Board and management team with extensive experience in their respective area of responsibilities.

Outlook- Buoyant Marine Industry

The Group's operation is expected to benefit from the generally positive outlook of the marine industry owing to:

- International Maritime Organization's regulation to phase out all single hulled tankers by 2010
- New demand and renewal of ageing offshore support vessels by offshore operators in the offshore oil & gas sector
- Increasing global demand for marine transportation resulting from the increased global trading activities
- Buoyant offshore oil & gas exploration and production activities
- Economic growth of regional countries including China, India and infrastructure development in Middle East
